

# Spun

## Sublime With Rome

I'm spun- just like a raisin in the sun  
I'm fried up and the fun has just begun  
And I swear- with all the love inside my head  
I've gotta dish it out and gotta shareBut lately- I've been walkin' this road... searchin' for an end  
But I've finally made it out...Ban me from your company  
And I'll meet you where the sunlight meets the road.  
Ooh show me something I've never seen  
And I promise I'll be right there waiting...I'm free- from all the judgement that you put on me  
And I know it pulls and I know it tugs inside  
I shake- and just so I can get a breath  
Cause if they had it their way they would push me to my deathCause I've been walkin' this road... searchin' for  
an end  
But I've finally made it out...Ban me from your company  
And I'll meet you where the sunlight meets the road.  
Ooh show me something I've never seen  
And I promise I'll be right there waiting...And I just don't wanna leave maybe this time...  
And watch it grow and die inside...oh we'll watch it grow  
...then we'll watch it die alone this time oh it's for real  
we'll watch it die...Oooh Wooahh, oh we'll watch it grow and die  
Oooh Wooahh, and we'll watch it grow and die  
Oooh Oooh, and we'll watch it grow and die.
