Start the Show

[Jet](#)

Start the showRunning down the alleyway, stepping on the hearsay
No stopping what you can't stop, they tell me
The push comes to shove, yeah
You don't need a watch to know what time it isDon't need a plan, we can fall into it
Just, ah, like a domino, here we goWe can roll, rock and soul
You know what time it is to start the show
Build a fire, watch it grow
You know what time it is to start the showDriving on the interstate, licking off a silver plate
Swinging like a heavy weight, I am free
Now we can roll with the show
Yeah, you live fast, you die alone, now break the moldWe don't need a plan, we can fall into it
Just, ah, like a domino, here we goWe can roll, rock and soul
You know what time it is to start the show
Build a fire, watch it grow
One, two, three, now baby start the showWe can roll, rock and soul
You know what time it is to start the show
Ladies and gentlemen, we're ready to go
You know what time it is, start the show
