

An Olive Grove Facing the Sea (live)

Snow Patrol

Sworn to secrecy, I might go after school
She was an angel, I saw her swimming there
I am in such a mess I can't cope with this
She just teases me, pretends she can't see me here
So let me go up there I can be fresh air
Stay with you all night, just let me love you
Just for a while or two
Be with you all night be with you all night
'Til I fall asleep, 'til I fall asleep
'Til I fall asleep, 'til I fall asleep
Just let me be here, I won't tell anyone
Don't wanna wake up, don't wanna wake up
The blind lead the blind, so I can't help find my way
This could be heaven I don't know where I am
I am too scared to come out from behind here
My body is aching it feels like it's wearing me
So let me go up there, I can be fresh air
Stay with you all night, just let me love you
Just for a while or two
Be with you all night, be with you all night
'Til I fall asleep, 'til I fall asleep
'Til I fall asleep, 'til I fall asleep
Just let me be here, I won't tell anyone
Don't wanna wake up, don't wanna wake up
