

You Ain't Seen Nothin' Yet

Uptown Vocal Jazz Quartet

You've seen the auroras borealis
Seen every glorious royal palace
You've seen the Louvre, yes, and the Orsey
Seen what Vesuvius left of Pompeii
You've seen the Isle of Wight by the sea
You've seen the title fight by Ali
But here's my money cause Baby I bet
You aint seen nothin yet! You've made the Great White Way of Times Square
You've played the Cabaret and Bergeres
Where you get lots of kisses and applause
Even met Mister and Missus Santa Claus
Baby Girl wont you give in, let me show you
(I know I should give in)
Leave this world that you live in far below you
(Show me what livin can be right now)
Cause I can fly you higher than you'll ever get
You aint seen nothin yet! Let me tell ya what I'm talkin about
You're livin a life that's fine and pleasin in the general estimation
But I suppose you never had love like mine
To tease and tickle your imagination
So I propose that we
Raise a cup, you and I
Gazin up to the sky
And talk of memories of the things you should do once
Then you'll find in your mind you're inclined to be
Makin new ones with me and maybe you'll kiss me
And Baby you'll wish we could go to the ends of the world
And beyond for fun
Consider it done
I'm gonna turn up the heat beneath your steady blue glow
We're gonna burn up the street so are you ready to go?
You aint seen nothin yet! We've only begun the ascent
Imagine the fun we'll invent
It might even be fun to repent
The crazy things we do, me and you
We'll swim in the swell of the tide
And have us a hell of a ride
Time for no restraint and no regret
For you know we aint seen nothin yet

Youre never gonna forget Yeah!
