

Sugar

SDIB

just another day in this paradise
take a look around i guess it'll be alright
i still got to wonder if your got me going crazy yes
yesterday i saw you with your other friend
you just closed your eyes but only gave a grin
i'm not too sure that i can share your experience of happiness no

((CHORUS))

remember that im sorry
all the things i ever done ill slowly take them bayayaaak alright
if had the chance to show ya
im sure you'd understand and put your mind not look past that
but i still reminisce about the sugar in your brown eyes
the sour in your frown oh yeah~~~
im sorry that i left ya
if i could go back you know id do it all again
do it all again

yesterday my babygirl n i heard the news
'bout rolling down the old familiar avenue
my body told me not to worry everything will be just cool oh yeah
its funny how time could change everything
why's my baby wearing the strangest wedding ring
i still got to wonder if you still got me going crazy yes

CHORUS X2
