

Cruizin'

Kottonmouth Kings

Cruizin havin good times got my hair right in the sunshine turn the fire
Round like an airplave got my butterfly and I'm feelin great.
Chorus:Cruizin havin good times got my hair right in the sunshine turn the
Fire round like an airplane got my butterfly.
The weather is right and you just might slight tattoos on your neck and you
Like motor bikes superstar brights spend a star pay right be my lucky star
Shootin down tonight you can catch me on the highway cruizin top down with
My girl and my dog hey do way banks we movin sunshine burnin up the fun it's
A real nice life to get lifted good vibes all around my seat I took a long
Deep breath and I drifted back home where the lifes all green.
Hair in the wind is like I'm flyin it's like I'm up in the air look all around
See people smilin (Hey how you doin man how ya doin?) Suns out and I'm
Feelin like I'm in the tropics plus I got a little change in my pocket
Shirts gotta stain but fuck it imma rock it southern cali cruise and there
Aint no stoppin it. When the air is blowin and her hair is flowin pretty girls look at me and I
Bet she's knowin she's got it goin on flowin on she's blowin spread your
Wings and fly your my sweet butterfly.
I got my sterio on I got my portable bon my ladies riden shotgun my loosies
Do weigh a ton I put it in cruise control the rhythms feeding my soul I
Pack bowl after bowl and everything is all right we gonna crise all night
