

Take It Low

Lloyd

I wish we could have a chance
All I need is a chance
To really get to know ya
Girl I've seen the way that you prance
By the way dat you dance
There's some things I'd like to show ya
So, baby, if you're down to ride
Show your feelin's, don't hide
There's room inside the rover
Your what I need in my life
Your body's so right
You're shaped like a bottle of soda
Please, believe it's not a dream
It's exactly how it seems
Girl the magazine showed ya
I know you see these shiny things
Gold grill, diamond rings
Me and my niggaz takin' over
If anything I need a queen
Who can lean on my shoulder
When I feel the need to hold ya
Girl ya makin' me wanna
Flee the scene hit the road
Won't you across the border?
Baby, let me see you take it low
Take it low, take it low, take it
Let me see ya, let me see you take it low, baby yeah
'Cause it's about to get physical
Physical, physical, baby
Oh, baby, oh, yeah
I dont know 'bout you but I know
I would like to do lotta things to you
Lotta things, lotta things
Lotta things to you, freaky things to you
But Shawtey
I dont know 'bout you but I know
I would like to do lotta things to you
Lotta things, lotta things
Tryna do to you, baby, do to you
Now, girl, I'd love to be your man
But understand that my plan
Is to be your one and only
Ain't no runnin' round tryna fuck the homies
Down on the other side of town just tryna flow me
Yeah, I know that if my mind's
On the grind 99 time to time

You may feel unwanted
But in fact anytime your feelin' lonely
Don't wait another moment
Hit me up I'll come jump on itBaby, let me see you take it low
Take it low, take it low, take it
Hmm, Shawtey, let me see you take it low, yeah
'Cause it's about to get physical, so physical
Physical, physical, baby
Ooh, yeah, it's gettin so physical
Hidey ho little girlOh, no, take it slow, just take it lowly daily
Oh, no, physical, so physical baby, yeah, so physical
Oh no take it slow, just take it lowly daily, allright
Oh, lets get physical so physical baby, yeah, so physicalLet me see you take it low
Take it low, take it low, take it
Take it low, said, take it low, baby
'Cause it's about to get physical
Physical, physical, baby
Baby, let me see you take it low
Take it low, take it low, take itLet me see you take, take it low
'Cause it's about to get physical
Physical, physical, baby
Oh, baby, oh, yeah
Lotta things, lotta things
Lotta things to you
