Save Me

Forty Foot Echo

Sit around and lose myself

Again

Never thought I'd wait

To realize

I can't hold on

To what you see

I can't move when your down on your sceneOur mistake

Its all I remember

Trying to hold on

To all of my waysChorus:So save me

In my life

Just hold on

How could you realize?

Just save me

In my life

Just hold on

Got to realize

GoodbyeSit around and find myself

Again

Never thought I'd wait

To justify

I can't hold on

To what you see

I can't move when your down on your sceneChorusGoodbye

Ooh GoodbyeSo save me

So save me

In my life

Just hold on

How could you realize?

Just save me

In my life

Just hold on

How could you realize?

So save me

In my life

Just hold on

How could you realize?

So save me

In my life

Just hold on Ooh
