Never

Chiddy Bang

Never chase girls, chase dreams first Motion picture drive I concluded that my dream works So I pace right Never see my break lights Never trust a person But damn too many great whites Never work without merit Never live but don't cherish 'Cause we only born to perish This is a luxury tariff Here to preach a brand new sermon Eric And it's hysteric They say you too pretentious don't get into that Never the same, out in left like a democrat I would like to present you with this rap award And now I got more gigs than an apple store. And yo you whiling boy

And yo you whiling boy
You ain't even stylin' boy
It's like I'm on a boat
Feelin' lonely on this Allan Boy
My life will never be the same
If never ever was
You'd probably feel my pain
(Chorus)

This is forever
This beat is on black pepper
You could get shook
If you lookin a little extra
Never fall off just make it a little better
And when you think it's sunny
That's when we change up the weather
And when you say you better
I bet I say never
And If you say you better
I bet I say never
And when you say you better
I bet I say never
I bet I say never

And If you say you better

I bet I say never
I never do as I'm suppose to
Give me the light, Sean Paul, 02
At homecoming
Yeah I went and brought my whole crew
I thought I killed it
Though they could not hear my vocals (Damn)
And they say why you roll that grape stuff?
I take a poll and wonder why the Beatles break up
Imagination is magic so when I wake up
Feel like I'm lookin' up at Hogwarts

Would it be wrong to have meetings in my ball shorts

The flow excessive

Like cops when they usin' whatcha call force Xaph is beast you prolly should brung the west I swear I'm never like a nun when it comes to sex And yeah I po-po-po-ker face the best bet

Frequent flyer miles
I'm tryin' to jet set
It's gonna take me higher
Might even make me flyer
Life is a box of chocolates
So I prefer Godiva
(Chorus)

This is forever
This beat is on black pepper
You could get shook
If you lookin' a little extra
Never fall off just make it a little better
And when you think it's sunny
That's when we change up the weather
And when you say you better
I bet I say never
And If you say you better
I bet I say never
And when you say you better
I bet I say never
I bet I say never
