

# Sister Mary

## Big Engine

(Chorus)

Sister Mary's got some  
Strange medicine lately  
Keeps her up all night

Makes her sleep all day Sister Mary's got some  
Strange medicine lately  
Keeps her up all night

Makes her sleep all day Woke up this morning to the pouring rain  
Sister Mary cries on the floor

She drank some coffee and she tried to explain  
What she stayed up all night for

She says I know how it feels and what it means  
To crash the sky, to fly so high on the wings of my dreams  
Well every diamond shines but every flower fades

And Sister Mary won't be the same (Chorus)

Sister Mary's got some  
Strange medicine lately  
Keeps her up all night

Makes her sleep all day Sister Mary's got some  
Strange medicine lately  
Keeps her up all night

Makes her sleep all day She checked her makeup and I lit her cigarette  
And she says mirror mirror on the wall

Who's the fairest child with a soul full of regret?  
And nothin' thrills me anymore

She says remember when your friends called me the queen  
They used to hang around, make whistle sounds back when I was 16  
I'm so afraid to hear what they'd call me today

Your Sister Mary oh what a shame (Chorus)

Sister Mary's got some  
Strange medicine lately  
Keeps her up all night

Makes her sleep all day Sister Mary's got some  
Strange medicine lately  
Keeps her up all night

Makes her sleep all day And I promise I remember  
Days of poetry and pain

And she swore that she would never surrender  
Sister Mary won't be the same sister Mary.....(Chorus)x 6

Sister Mary's got some  
Strange medicine lately  
Keeps her up all night  
Makes her sleep all day  
Sister Mary's got some  
Strange medicine lately  
Keeps her up all night  
Makes her sleep all day  
Sister Mary....
