

# Think I Need It Too

## Echo & The Bunnymen

Must've forgotten something  
How to forget how to be true  
Covered myself in nothing  
Don't touch me and i won't touch you  
Tryin' to remember something  
Why am I here and who are you?  
You must admit something  
Animals came in two by two  
Whatever you want  
Whatever you need  
Whatever you want  
Whatever you need  
I think I need it too  
I think I need it too  
I think I need it too  
Just as I thought I'm thinking  
How can I change when I don't want to  
Kept getting caught  
Kept drinking  
How can I blame what I got to  
Putting the wheels in motion

Autopilot I can't drive  
Covered in chalomine lotion  
Scratching my ?? bee stung  
Whatever you want  
Whatever you need  
Whatever you want  
Whatever you need  
I think I need it too  
I think I need it too  
I think I need it too  
Whatever you want  
Whatever you need  
Whatever you want  
Whatever you need  
Whatever you want  
Whatever you need  
Whatever you want

Whatever you need  
I think I need it too  
I think I need it too  
I think I need it too
