Always Been You (Cinematic Version)

Marie Hines

Marie Hines
Always Been You
The Tide & The SeaFar and wide, I see them searching
Day and night, spend their lives looking for
Just a little bit moreOpened the sky, pulled down the moon,
Aimed for the dark, looking for the truth
But for me, all I know isIt's always been you, love
It's always been you, my loveI'll be yours until the sun dies
Til the stars fall from the blue sky
All my days, love for a lifetimeYou'll be the tide, I'll be the sea
The rise or fall brings you home to me
Brings you home to meIt's always been you, love
It's always been you, my love
It's always been you, love
It's always been, always been you, loveWe opened the sky, pulled down the moon
We saw through the dark, and we found the truth
I found youIt's always been you, love
It's always been you, my love
