

# You Could Have Anyone

Lee Harding

Hey girl it's party night  
Swoop you in my Datsun 'Cherry'  
I'm Mister average  
You're Miss-Not-So-Ordinary  
Built like a goddess  
Everyone knows you're the hottest girl in school  
You're cool  
And everything they all want to be, yeah  
[Chorus]You could have anyone  
Could have anyone  
But you're dancing here  
With your arms around me  
You could have it all  
Like candy in the mall, yeah  
You could have anyone  
But you want

But you want me  
Here come the golden boys  
Lord knows I don't have their muscle  
But what I lack in buff  
I make up for with my hustle  
Still everybody in the party's turnin wonderin  
Why you're not here with someone else  
And why you're here with me cos  
[Chorus]Sometimes it feels as if I'm dreamin  
And if I'm dreamin  
Please just let me be  
[Chorus]
