Wishing

Hale

Landscapes in the wild
Upon a shore of a sea open wide
The great escape from your wife
She's the best mistake of your lifeAlways starts when you cry
Never ends with a smile
All you've said was a big, big lieOn the wings of love we falter
A day with you a big disaster
Soon forever will be over
How i wishNever has a sweet november
All i had was a dark october
For a while i wanted to die
But i said why oh why
