Taboo Lights

Mona

Won't you just choke and spit
Come on, let's get it over, go with it
Don't be scared, just know that this

All of this aftermath
I know that you didn't ask for that
But what happens after that
No one can say

And you keep on watching
I'm not watching, so long
And you keep on talking
I'm not talking, so long
And you keep on wanting
I'm not wanting, so long
And you keep on loving
I'm done running, so long

I'm in the taboo
Especially your red view
So don't close your eyes
Turn on the light
I wanna see

I walk up your cage
And I won't ask your age
I'm ready for the twist
If you swing, don't miss
Lay it on me

And you keep on watching
I'm not watching, so long
And you keep on talking
I'm not talking, so long
And you keep on wanting
I'm not wanting, so long
And you keep on loving
I'm done running, so long

All I need is

All I need is
You, you

All I need is, all

And you keep on watching
I'm not watching, so long
And you keep on loving
I'm done running, so long
Solo, solo

You keep on watching
I'm not watching
Keep on watching
I'm not watching
Keep on watching
