Into the Code

The Thermals

out of the past
it wasn't worth the wait
it wasn't worth the time
that we took to create
every stone on every road
into the codeout of the past
leave it a mess
we bought it for cheap
we sell it for less
each day we knew
away will blow
into the codeinto the code
we stay alive
we will be whole
we will survive
if we go
we will not be missed
in the code
we will always existout of the past
we're finally here
the secrets of the past
they will not disappear
every story we sold
every lie we told
