Saliva

You think you're something right
You think you're something on
You think that you're not a lie
I think you're nothing at allYou think you're so damn real
You think you're so damn strong
You think you're something right
I think you're something wrong
And man you're goin' down
And man you're goin' downYou think you're so damn right
You think you're so damn swell
You think you're so damn fly
You think that you're in hellYou think you're so damn real
You think you're so damn high
I see the way you live
I'll see the way you die.
