

Low Low Low

Heartless Bastards

Well I left my home and I'm startin' to roll
A new beginning here out on my own
I'm feeling the sun so warm on my skin

Things are turning around againFor a long time I've been on the mend
And I don't need no more medicine
I'm filled up with cold, my future is bright

And give me some sunshine, give me sunshineComing round the bend, coming round the bend
I've waited so long, waiting so long
I'm getting used to being alone
I'm getting used to out on my own
Fore a long while I thought I wouldn't pray

But now I know that it just takes a whileI'm always low low low low low...And I open my arms out, open wide

And I swallow my fears I cannot hide
And it's been such a long long time
And it's been such a long time

Coming round, round the bendI'm always low low low low low...I, I left my home and started to roll
A new beginning here out on my own
