

# Night Swimmers

## Foals

[Verse 1]

Another hot summer's day  
And only we know the way  
To the cool blue lagoon  
Where we sleep until noon[Verse 2]

The city is all ablaze  
With blue notes and haze  
We hit the open wide roads  
We snuck the moon in clothes[Chorus]

Get up again x3[Verse 3]  
We swim under the moon  
In the cool blue lagoon  
You count up all my scars  
Crumble them into stars  
You're such a perfect mess  
You and your dirty white dress  
And the day I came to[Chorus][Verse 4]  
The perfect blue evening  
We sit and drink and we sip  
Smoke flowers rising high  
Under the flaming sky
