

Do Wot You Do (OST Pretty in Pink)

INXS

And in reflection of days gone by
I stayed awake all last night
When morning came, I was still unsure
To laugh or cry, I'm needin' more
And it's not easy to take the time
From all we need, we cannot hide
We live our dreams and all we find
Is bittersweet and full of pride
Ooh what have we done
Built it up, a little too strong
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
No one else can do what'cha do what'cha
And in reflection of days gone by
I stayed awake all last night
When morning came, I was still unsure
To laugh or cry, I'm needin' more
Ooh what have we done
Built it up, a little too strong
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
No one else can do what'cha do what'cha
Ooh what have we done
Built it up, a little too strong
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
No one else can do what'cha do what'cha
I need every minute with you
