

# Reanimation

## Sacrifice

Brain dead, descending to flame  
No way to survive or have life regained  
Re-animation to bring back the dead  
Revive the soul, resurrectSynthetically revived to regain control  
The spirit world sends back my soulPierce the needle through the back of my head  
Chemicalas flow, I'm revived from the dead  
Brain exists, my soul descends  
Re-animated, my sleep endsThe final curtain has been opened to regain my soul  
Blood restores my flesh, ice coldAwakened, now I break the silence of life  
Raging uncontrollably, pummeling with spiteRe-animated
