

Cigarette Pack

Dan Black

Coco, you do me well
But there's things that you can't give
Coco, I have to go
I've got this things that I must leave I must leave

I'm gonna change this world
Man, I've got a million ideas
I'm gonna change this fear
Make it totally disappear
Soon as I'm not tired, then I'll start my attack

I never show you where I'm at ?
On the back of a cigarette pack.
On the back of a cigarette pack.
All my plans
On the back of a cigarette pack
All my plans
On the back of a cigarette pack

Coco, you do me well
But there's things that you can't give
Coco, I have to go
I've got this things that I must leave I must leave

I wanna taste that paint
Feel it, swallow it, in my mouth
I wanna drink that sound
Drink so deep that I could drown
Soon as I'm not tired?
Then I'll start my attack
I never show you where I'm at ?
On the back of a cigarette pack
On the back of a cigarette pack

All my plans
On the back of a cigarette pack

All my plans
On the back of a cigarette pack

All my plans
On the back of a cigarette pack

All I really have ? is this fire
