

So What

The Mowgli's

The night makes me say
things that when I don't feel that way
All of my days kaleidoscope till a million of things
You keep me awake
Call me up when cigarette break
I have nothing to say
So I'm listening to every breath you take I - I - I was in the back of your mind
I - I - I kind of like what I see, but I don't wanna be here
So, what If you know how difficult to trash and came out with gold yeah
So, what if you broke what someone probably cares but I swear I don't yeah
Monday still along Sun come up with a week ago
So, what if you know
So what, so what, so what... so what
Anything you say
A million times gonna sound insane
Maybe its a wast, maybe everything its this days I - I - I was in the back of your mind
I - I - I kind of like what I see, but I don't wanna be here
So, what If you know how difficult to trash and came out with gold yeah
So, what if you broke what someone probably cares but I swear I don't yeah
Monday still along Sun come up with a week ago
So, what if you know
So what, so what, so what... so what I-I-I I'm feeling all ri-i-ight
I-I-I so don't you forget what you are feeling Tonight
I-I-I I'm feeling all ri-i-ight
The First time in a long time
So don't you forget what you are feeling Tonight
So, what If you know how difficult to trash and came out with gold yeah
So, what if you broke what someone probably cares but I swear I don't yeah
Monday still along Sun come up with a week ago
So, what if you know
So what, so what, so what... so what
