

Stay

Gavin DeGraw

You don't have to be part of the problem
I just need a second chance, I just need a second chance
Instead of leaving me standing in sorrow
I know that you'll understand and hope then you'll understand
I know that I was wrong but just don't walk away Oh, won't you stay? I need you, need you here
When you're with me all others disappear
I'll follow close, so close I'll almost touch
I need your love but it never hurt this much I don't wanna be someone who's searching
Finally met someone, I finally met someone
There's a couple things I'm still learning
Just gotta figure out but you need someone who knows
I came to you tonight but now you're just walking away Oh, won't you stay? I need you, need you here
When you're with me all others disappear
I'll follow close, so close I'll almost touch
I need your love but it never hurt this much Don't get caught up in mid feeling off course of day
You can take a minute 'fore you go slipping away
I know I took some time but I realized my mistake
You don't have to be part of the problem
I just need a second chance Oh, won't you stay? I need you, need you here
When you're with me all others disappear
I'll follow close, so close I'll almost touch
I need your love but it never hurt this much
I need your lovin' arms at night, but it never hurt this much You don't have to be part of the problem
I just need a second chance
