

# Angels On a Razor

Ed Kowalczyk

(Verse 1) Standing in a daze at the edge of time,  
Into the garden a child wanders,  
Innocent one what did you find?  
Where did you go?  
Did you see your face in that dark black night?  
Or just a feeling, just an inkling?  
Everything is gonna be alright  
Some will see, some they will stay blind  
But oh some will rise (Chorus) Oh carry on, carry on sweet child  
And break on through  
You'll never save the world from behind the glass  
Just take your time, between the lines sweet child  
You'll find the answer,  
Balanced on a razor,  
You'll be dancing with angels (Verse 2) Standing in a daze at the edge of night  
In a world that's needing to stop the bleeding  
Stumble through the crowd like a vagrant might  
Spreading joy around  
Innocent one you taught me well  
If only they could, see behind the veil  
See the other world (Chorus) (Verse 3)  
I know your weary baby  
But times like this pass, they go  
Just close your eyes and know  
That you,  
You are the center honey  
And everything's drawn to you,  
Whatever you know to be true (Verse 4)  
Just carry on, carry on sweet child  
And break on through you  
Never save the world from behind the glass  
Just take your time between the lines sweet child  
You'll find the answer  
You will find it  
Balanced on a razor, you'll be dancing with angels  
You will find, the silence all around you is alright
