Batteries

Ian Ball

Feat. Trina
Some of them dancing, some of them drinking
Everybody like wassup,
Muse like a party, girls dress naughty
Got them homies like wassup
They wanna take them out like a picture
Shawty over there moving like stripper
But she ain't the one that I'm trying to get
Cause I'm thinking that she might be easy
I'm looking for a new type some that be like
I ain't ...leave with you
So I'ma give her this pimping, girl why you dripping
tell me what you about to do
She told she about to go home, but first she gotta stop by the store
She needed double lays for a new device, so I looked that her
Girl put your money away, I can give you batteries, I'll be on double A's,
I can give you batteries, when you're screaming my name, let me give you batteries
Just put your toys away, I can give you batteries,
I can give you batteries, I can give you batteries
I can do it so good, you can call me oak wood, beat it like a triple ex star
I run like a marathon, make you wanna tell your mom
Mamy he's the best by far
Have you coming back for more, all you gotta do is open up the door
I'll deliver the goods like a postal man, all you gotta do is give me that f...
A double shot of hand is all you gotta give me, I'ma make it do what it do
So what it's gonna be babe is you living with me,

Baby girl what you trying to do
She said that she don't wanna be alone
I think that's she's about to take me home
Next time you're on and you are lonely girl
Just look at
Girl put your money away, let me remove your batteries, I'll be on double A's,
Remove your batteries, when you're screaming my name, let me remove your batteries
Just put your toys away, let me remove your batteries
let me remove your batteries, remove your batteries
Energizer bunny, you ready to get a side
Can you keep up, but let me take you for a ride
Introduce my water fall, while I climb on top

Make sure you charge that cause I don't wanna feel it stop
Go all night, go on and on and on, Travis Parker get them drum
Hit till you make a song
Make me do the shake, tell me how I taste
Guiness World our record how much can you play
Cut it like a make me sweat till I faint
The bear and I make me loose weight
500 degrees you see coming at my side
if you a g, be a gi, you gotta hit the g side
Girl put your money away, let me remove your batteries, I'll be on double A's,
Remove your batteries, when you're screaming my name, let me remove your batteries
Just put your toys away, let me remove your batteries
let me remove your batteries, remove your batteries.
