

Everyday Girl

DJ RAP

I'm an everyday girl
Who's looking out for me
In a throw, throw away world
Where the blind can see Yeah I'm thinking about my situation
And everything I've ever seen
It's not about the world that fails me
You know, it's basic humanity No wonder why, I sure don't count on nothing
Believe the hype, I'm saying something A sensation sound vibing off as it replays
High on higher ground and I'll be here always
I'm an everyday girl
Living in a throw away world I'm an everyday girl
Take the pressure, take the pressure off me yeah
Everybody has two faces
Which one's looking at me, yeah I wonder why I sure don't count on nothing
Believe the hype, I'm saying something A sensation sound vibing off as it replays
High on higher ground and I'll be here always
I'm an everyday girl
Living in a throw away world I wonder why I sure don't count on nothing
Believe the hype, I'm saying something
