Stay With Me

Luminate

I never thought that life could hit me in the face like this
I never thought that I'd betray You with just one kiss
My secrets move in like an army to invade my mind
My walls they shake, defenses break, this happens all the timeThese walls are closing in, feels like I'll never win
Breaking up, I'm breaking down but You sayStay with Me, don't come undone
Stay with me 'cause we are oneI find it easy to believe when I've got all I need
I take the credit for the debt that You paid for me
But in the money and the power lies a creeping death
'Cause when it fades, stripped away, now what's leftI'm just a broken mess, I'm filled with bitterness
I'm breaking up, I'm breaking down still You sayStay with Me, don't come undone
(I know the road is tough, this love will be enough)
Stay with me 'cause we are one
(I know we're meant to be, this is our destiny)Even when I fall, Your love catches all
Even when I fall, Your love covers all, all of meStay with Me, don't come undone
(I know the road is tough, this love will be enough)
Stay with me 'cause we are one
(I know we're meant to be, this is our destiny)Stay with Me, don't come undone
(I know the road is tough, this love will be enough)
Stay with me 'cause we are one
(I know we're meant to be, this is our destiny)
