

Dusty Winds

[Marty Robbins](#)

Ninety days since the country's seen a drop of rain
Fourty four since the grass begin to burn
Thirsty cattle are millin' round the old creek bed
Disty winds where the waters used to churn
Dusty winds hear them blow dusty winds moanin' low
Night and day on they go those dusty winds
Now a cloud in the sky but still the sun shines dim
But enough to turn the scenery dark and brown
Lookin' westward is a dust cloud loomin' high in the sky
Shows the trail of fifty settlers leavin' town

Dusty winds hear them blow...
When it's late in the evenin' in my cabin all alone
It's so lonesome when that wind comes howlin' through
And I think of all the settlers headin' west out of town
Kind of wish I had left here with them too
Dusty winds hear them blow...
