

Come alive

Halloween

It don't get better if you're locked behind your door
It don't get better if you're hiding more and more
It may get better if you fight
It may get better if you'd wear a mask and scream
On Halloween Come Alive
Come Alive
Rise and see
Rise and be for me
Come Alive
Come Alive
From the blue
Make it true for You
Come Alive It don't get better if you're acting for a while
It don't get better if you drown itself denial
It don't get better without pain
It'd don't get better if you turn around and flee
To ecstasy Come Alive
Come Alive
Rise and see
Rise and be for me
Come Alive
Come Alive
From the blue
Make it true for You
Come Alive
