

# Redwings

## Guillemots

This is where we fall from the trees  
This is where the sky comes up  
[Incomprehensible] joy  
You made a man out of me  
This is where the glass leaves the lens  
Splinterin' a chemistry of friends  
I'll treasure you always  
You know, I love you  
You know, I love you  
You know, I love you  
This is where we wake in the ditch  
This is where our bodies sing no more  
For the apples on the floor  
Pecked down by Redwings  
Pour another whiskey out for me  
It'll be the last bottle we share  
Because I drift outta nowhere

Know that I loved you  
Know that I loved you  
Know that I loved you  
But love was not enough to hold my grip  
Can't you just feel my fingers slip  
Into those oceans and the sky where people swim  
Ocean and the sky callin' me in  
Oceans and the sky, I tell myself  
No, I'm not kiddin' anybody else  
They know I'm leavin', yes, they know I'm leavin'  
They know, they know they know  
Know that I'm leaving, leavin', leavin'  
They know that I'm leaving, yes, I know  
So I'm leaving my best friend  
Just for the hell of it  
Just for the sake of it  
How much I loved you
