Till the End

Jessie Ware

[Verse 1]
Don't tell me I've been dreaming
When you're standing there in front of me
It's just the simple things, you see
It's all the things you do to me[Chorus]
When everything is crazy
You find a way to make it right
Yes, I love and I love and I love and I want you
It's gonna be till the end of time[Verse 2]
You only have to look my way
For me to know it's not in vain
And even when it's raining
I don't see the clouds again[Chorus]
When everything is changing
When I'm tripping up against the tide
Yes, I love and I love and I love and I want you
It's gonna be till the end of time
I wanna be right by your side
I'm gonna love you day and night
It's only you that makes it right, ooh
