Drive

Treble Charger

I'm tired of thinking less
Of what you heard me say
I'm troubled I confess
It's clear that I can't staySurrender now I guess
Safe to face the light of day
I'll tell you all the rest
It'll have to be on the wayIf I live that long
Don't think I'm that strong
I wish I was wrong
But that's not likelyDriving through the night
The street lamps shine so bright
Oh, they're so brightEverything will pass
Like a car with tires that squeal
'Cause it's driving way too fast
And it's me behind the wheelI know it's been a blast
Don't know how I'm supposed to feel
The more I hit the gas
The less it seems to be realI won't live that long
But I do feel strong
You can prove me wrong
But that's not likelyDriving through the night
The street lamps shine so bright
But I don't feel all rightDriving through the night
The street lamps shine so bright
But I don't feel all rightDriving through the night
And it's alright
