

Dance All Night

Scythian

Here we go! Ive seen more troubles than a gamblin man
 Been broke more times than a gypsy van
 Ive seen my gold all turn to rust
Ive seen more roads than a greyhound busHold me darlin closer
 Stay with me tonight
 Dance all night by the firelight
Come sun up and Ill be goneIve lost more time than a busted clock
 Learned to fight fore I learned to walk
 Broke my back working on the rail
Hid from the law in the county jailHold me darlin closer
 Stay with me tonight
 Dance all night by the firelight
Come sun up and Ill be goneSeen more pain than a cactus patch
 Laid more plans than I care to hatch
 Been more lonely in a citys stress
Made more friends in the wildernessHold me darlin closer
 Stay with me tonight
 Dance all night by the firelight
Come sun up and Ill be goneDance with me by the firelight
 We dont got long but we got all night
 To wash all the years away
 Dont hold back, dont break a step
 No time to worry, no need to fret
Just blow me a kiss goodbye at the break of dayDrank my fill from an empty glass
 Saw my future looking in the past
 Almost drowned standing on dry land
Tasted honey in the desert sandHold me darlin closer
 Stay with me tonight
 Dance all night by the firelight
 Come sun up and Ill be gone
Ooooh, yeeah!Dance with me by the firelight
 We dont got long but we got all night
 To wash all the years away
 Dont hold back, dont break a step
 No time to worry, no need to fret
Just blow me a kiss goodbye at the break of dayBounced more trains than a rubber tramp
 Found my face on a postage stamp
 Ive seen fine ladies and pretty sights
 But I aint seen nothin like you tonightHold me darlin closer

Stay with me tonight
Dance all night by the firelight
 Come sun up and Ill be
Dance all night by the firelight
 Come sun up and Ill be gone
