

Psycamore

Subvision

I am as one in unity
With you
Are too
A rhyme
Together we're sworn
Affinity
Sweet love gone sour
With time

This sick amore is really killing me
This psycamore
Psycamore
Psycamore

Given a part in tragic play
As witch
Your curtain call
The woman in tears that you portray
Says no love lost at all

This sick amore is really killing me
This psycamore
Psycamore
Psycamore
Your frozen blood is really chilling me
A heart so sore
Psycamore
Psycamore

This sick amore is really killing me
This psycamore
Psycamore
Psycamore
But after all you keep on thrilling me
So I want more
I want more
I want more
