

I Wasn't Here

[Rickie Lee Jones](#)

taking my time
hurrying along
I do what I like to go
where I know I will
never go wrong
the world is my home
the world is my cone
and it's delicious
to wish this-
that you never feel alone
I like how you walk
into a room
you can bring oceans of potions
and suddenly we're on the moon
I'm a galaxy jet!
so I never fret
that's never gotten me anywhere
I want to hang around yet
believe me
it's easy to be where you want to go
out in the nether together
and we'll just let go
and fly
fall through the air
don't have a care
these precious moments
we're in this together
we're lighter than air
someone like you
makes me feel see-through
cuz I was a weight
and the stakes got so high
that I finally fell through
believe and it's easy to see
where you're going
out in the weather together
with wind, sky and snow
so where shall we go?
I don't really know

but when we get there
I'm sure we'll ask someone
and someone will know
well that's how I am
happy again
just to be part of the show
when you go tell 'em I say hello!!!
I wasn't here
when you saw me, it's clear
(I hope you don't go)
