

Enemy

Kerry Louise Taylor

Whos the enemy man we gna see

Whos the enemy i feel blessed that this was sent for me

Whos the enemy il never let them try empty me

X2

Whos the enemy when people they dont remember me

Whos the enemy they sending me in control i feel whole

Their lies are infectious

My album sold

The real deal had to peal the hurt n neglect microphone checked

Extra ordinary they be rolling with the fairys they tried to frame me n put me in their picture i just flipped the

truth like a mixture a little mix their they got jokes

Joked up folkes messed up

These pure words i speak filtered like a siv their all take no give

Pain on pain

My aim is massive

The enemy stands with jealous hands

So drastic using my name on their bill i really dont feel

These are my levels my Grill took quick to judge they hurled their aim too busy watching other my truth was kept hidden under the covers you cant budge this my flow is deep ask my mother you cant budge this

Repeat chorus
