

It's Real

Lyfe Jennings

Lets leave and lets go and I saw her
Gave me her number, told me call her
She got me feeling like Im baller
And Im so into you I told her, Lets go someplace quiet
I said, Im staying at the Hyatt
She said, Its kinda late but we can try it
Shes so into me [Incomprehensible]
And I cant wait to touch her
She knows exactly how to Surely she wants to be my lover
So excited I forgot to
Stop and go grab some rubbers
Damn! Uh oh AIDS is real
Dont care how you feel
Yes, I want to chill
But I gotta wrap it up, I gotta protect us Cause AIDS is real
Dont care how you feel
We already know it kills
So I gotta wrap it up, I gotta protect us I never thought and then were grinding
She told me, "Baby get behind it"
"Its getting kinda hard to fight it"
She looks so good I said, Maybe we should go slower
No disrespect, but I dont know ya
I said, Gimme a second, let me go to [incomprehensible]
But she wants it now [Incomprehensible]
Swear to god on my mother
She knows exactly how to Surely shes a freak undercover
So excited I forgot to
Stop and go grab some rubbers
Damn! Uh oh AIDS is real
Dont care how you feel
Yes, I want to chill
But I gotta wrap it up, I gotta protect us Cause AIDS is real
Dont care how you feel
We already know it kills
So I gotta wrap it up, I gotta protect us AIDS is real
