

# Peace

Raphael Gualazzi

From the first time I saw you, babe  
It wasn't supposed to be love  
It wasn't supposed to be nothing serious  
Between my soul and yours  
And the first time I loved you babe  
It wasn't supposed to be war  
It wasn't supposed to be something that i wanted  
Each moment night and day Love, sensations I've never felt before  
Life, life all around me  
Peace, peace in my mind  
You, it's all because of you, girl  
Love, sensations I've never felt before  
Life, life all around me  
Peace, peace you Don't you know, babe  
How I feel  
When you're not here with me  
I wasn't born to be a lonely man!  
So again I need your  
Love, what you give me I can't explain with words  
Life, a hundred years of joy  
Peace, when I fall into your eyes  
You, my, my, my woman  
Love, sensations I 've never felt before  
Life, life all around me  
Peace, peace and you, you Now tell me, tell me, tell me, tell me little woman  
What more do you want from me?  
I gave you my heart, my soul, my everything  
Life, everything I could give you i gave it to you  
Peace, because I love you woman  
Love, now other things are happening around me  
But love and life and peace.  
Love and life and peace, love and life and peace is you  
Love, life, peace  
Love and life  
Love and life, peace, you  
Love, life, peace and you
