Losing Control

Syntheticsax & Laura Grig

This is what it feels like to lose control
This is what it feels like to be left alone
This is what it feels like to lose a friend
This is what it feels like to reach the end
God came down and walked beside me
God came down, He sent friends to guide me
God came down to remind me
This is what it feels like to be loved
This is what it feels like to face the truth
This is what it feels like to know it's through
This is what it feels like to say goodbye
This is what it feels like for a man to cry
God came down and walked beside me
God came down, He sent friends to guide me
God came down to remind me
This is what it feels like to be loved
This is what it feels like to be loved
God came down and walked beside me
God came down, He sent friends to guide me
God came down to remind me
This is what it feels like to be loved
This is what it feels like
This is what it feels like
This is what it feels like to be loved
This is what it feels like to be loved
This is what it feels like
(This is what it feels like)
This is what it feels like
(This is what it feels like)
This is what it feels like to be loved
(This is what it feels like)
This is what it feels like
(This is what it feels like)
This is what it feels like
(This is what it feels like)
This is what it feels like to be loved
(This is what it feels like)
