

A Masterpiece With You

[Owen Campbell](#)

Over time of day the price of choices walking out the door
find some way the fastest road home to you a stranger
talks in some guitar leon but my mind left today
im taking the fastest road home to you
telstar nights along the road still all
these days are a blur just a milestone
closer to the day don't you know that
i be iv'e been here now
with ya on my heart your more like a
canvas and i'll paint a masterpiece with ya
don't ya know if i fall down fall on a dark
night its your faithful light that guides me everytime
