

I Think I Like It

Mojo Magnet

Yeah!

Boom-chaka-lacka said one guy to another,
As they started to discover
This was really like no other
All the things that theyâ€™ve been missing
Like the girls that needed kissing
Thereâ€™s no time for reminiscing
I think weâ€™re gonna like this

Chocolate bubbles t-to take away your troubles
Roll your luck until it d-d-d-d-doubles

I r-r-really really t-t-think I like it,
I t-t-t-think I really really love it,
You know, I t-t-think I really, really, really gotta have, have, have it
Just like I gotta have you,
Just like I gotta have you,

Crash, supersonic,
This obsessionâ€™s not plutonic,
And I guess itâ€™s quite ironic,
Just the name is this hypnotic

Like the dotes that keep you thinking,
All the sand that keeps you sinking
To the thirst that keeps you drinking,
I think Iâ€™m gonna like it

Chocolate bubbles t-to take away your troubles
Roll your luck until it d-d-d-d-doubles

I r-r-really really t-t-think I like it,
I t-t-t-think I really really love it,
You know, I t-t-think I really, really, really gotta have, have, have it
Just like I gotta have you,
Just like I gotta have you,

(solo)

You really gotta have it

To deny itâ€™s problematic
And itâ€™s making me erratic
Iâ€™m a super-crazed fanatic,

But you too will be obsessive
When you see how just impressive
And your needs become expressive
Cause you really, really want it

Chocolate bubbles t-to take away your troubles
Roll your luck until it d-d-d-d-doubles

I r-r-really really t-t-think I like it,
I t-t-t-think I really really love it,
You know, I t-t-think I really, really, really gotta have, have, have it
Just like I gotta have you,
Just like I gotta have you
