

Can't Find the Words

Karina

Now we've been talkin for a while
And you got me tryin to figure out
Boy I don't know what to say to you
But you got me feelin some kind of way for you And all I know is when we're together
No one can make me feel the way you do baby
I wish each moment can last forever
Its hard to explain the way I feel for you
I just can't find the words You got me losin' myself in what I'm tryin' to say
And its so hard to fight it, cant help but feelin this way
And every time that I'm near you its like my heart gets weak
Feels like Im losin my breath makin it hard to speak I just can't find the words
Just can't find the words
I just cant find the words
I just can't find the words Now I know I come off kinda shy
But it's hard to say what's on my mind
The chemistry we have is hard to find
But to find the right words, it's gonna take some time And all I know is when we're together
No one can make me feel the way you do baby
I wish each moment can last forever
Its hard to explain the way I feel for you
I just can't find the words You got me losin' myself in what I'm tryin' to say
And its so hard to fight it, cant help but feelin this way
And every time that I'm near you its like my heart gets weak
Feels like Im losin my breath makin it hard to speak I just can't find the words
Just can't find the words
I just cant find the words
I just can't find the words You got me trippin over words, you got me stutterin
And like a bad dream I'm callin' out but you don't hear me speak
And constantly I find myself in this predicament
So let me show you baby cause actions speaks louder than words One time
Two times
Three times
Karina You got me losin' myself in what I'm tryin' to say
And its so hard to fight it, cant help but feelin this way
And every time that I'm near you its like my heart gets weak
Feels like Im losin my breath makin it hard to speak I just can't find the words
Just can't find the words
Just cant find the words
I just can't find the words I just can't find the words

I just can't find the words
I just can't find the words
I just can't find the words
