Have I Got Some Blues For You

Charley Pride

The one you love stopped by to see me today,
Said she just couldn't tell you she was goin' awayI took her to the station, and I held her as she cried,
And she asked me if I would tell you goodbyeHave I got some blues for you, your baby's gone
Have I got some blues for you, you're all alone
I hate to be the one who has to bring you this bad news,
Have I got some blues for youI wish you could've heard it on the news tonight,
Or read it in the mornin' paper in black and whiteThen I wouldn't have to be the one who breaks your heart in two,
But she told me she'd found somebody newHave I got some blues for you, your baby's gone
Have I got some blues for you, you're all alone
I hate to be the one who has to bring you this bad news,
Have I got some blues for you
Have I got some blues for you
