

# Have I Got Some Blues For You

Charley Pride

The one you love stopped by to see me today,  
Said she just couldn't tell you she was goin' away I took her to the station, and I held her as she cried,  
And she asked me if I would tell you goodbye Have I got some blues for you, your baby's gone  
Have I got some blues for you, you're all alone  
I hate to be the one who has to bring you this bad news,  
Have I got some blues for you I wish you could've heard it on the news tonight,  
Or read it in the mornin' paper in black and white Then I wouldn't have to be the one who breaks your heart in  
two,  
But she told me she'd found somebody new Have I got some blues for you, your baby's gone  
Have I got some blues for you, you're all alone  
I hate to be the one who has to bring you this bad news,  
Have I got some blues for you  
Have I got some blues for you
