Barricades

Mammoth Grinder

When love is a crippled dream
When love is a crippled dream
That's where you'll find me
Saying, "I'm not afraid"And when love is a barricade
When love is a barricade
That's where I'll find you
Saying, "We're already made"I want to be near you all day
I want to be near you all day
I want to be near you all day
Don't go awayWhen love is a howling face
Trapped in a hollow place
I won't surrender
Or give you upSo don't put up these barricades
We don't need barricades
We have each other
And that won't fadeI want to be near you all day
I want to be near you all day
I want to be near you all day
Don't go awayTo the dark, to the smoke
To those downstairs, no faresI want to be near you all day
I want to be near you all day
