

# Dangerous Days (Maps Remix)

## Zola Jesus

You're gonna witness all the days,  
You never stood to fight for your name,  
And I will be there unspokenCurious,  
You never were the one for us,  
You never were the one for us,  
And then I just lay here openOn the floor, on the ground  
On the stairs, on the way  
On the floor, on the ground  
On the stairs, on the wayIt's a dark, dark day  
And it's dangerous to go  
and listen to what they say  
It's a dark, dark day  
And it's dangerous to go  
and listen to what they sayIn the way,  
The way you hold yourself straight,  
You never were innocent,  
And then I just lay here frozen,Curious,  
You never were the one for us,  
You never were the one for us,  
And then I just lay here openOn the floor, on the ground  
On the stairs, on my way  
On the floor, on the ground  
On the stairs, on the wayIt's a dark, dark day  
And it's dangerous to go  
and listen to what they say  
It's a dark, dark day  
And it's dangerous to go  
and listen to what they sayIt's dangerous,  
It's dangerous to know,  
When it comes, are you gonna throw  
Your bite into the game,  
Know what's right for your name,  
Lose your battle, it's all the same  
It's dangerous  
It's dangerousIt's a dark, dark day  
And it's dangerous to go  
And listen to what they say  
It's a dark, dark day  
And it's dangerous to go

And listen to what they say
