

Eyes Were Young

Little Barrie

See fame
Keeping true to form
The life
Second living you
To revolt
At an equal distance
Apart from a dream come true Betray
But we're holding out
The pain
Kill that never goes
Exist
Out of pure convenience
Too old
Isn't everyone? Shouldn't be no need babe
But you know it's all about to
Gotta set the score straight
Gotta learn em all about you Shouldn't be no need babe
But you know it's all about to
Gotta set the score straight
Gotta learn em all about you So how much longer would you die tonight?
Explanation that won't ever come
Pulled away when you couldn't choose
Had a face that you never touched
I tied two cables screwed to a wall
Didn't mean you never saw it all
Heard the blows and smelled the powder burn
I was young but not too young to learn Shouldn't be no need babe
But you know it's all about to
Gotta set the score straight
Gotta learn em all about you Shouldn't be no need babe
But you know it's all about to
Gotta set the score straight
Gotta learn em all about you Shouldn't be no need babe
But you know it's all about to
Gotta set the score straight
Gotta learn em all about you Shouldn't be no need babe
But you know it's all about to
Gotta set the score straight
Gotta learn em all about you

Yeah
But you fade (7x)
