

Eat the Children

Otep

Hush little baby, don't make a sound
Hush little baby, don't make a move
This is gonna hurt me more than you If I'm a danger to myself
Just think what I could do to you Twisting and turning my insides are burning
Like larva feeding from the kill
The pestilence of decadence, I worship my emptiness
I'm ravaged by the damages of this hell Eat the children raw
Eat the children raw
Eat the children raw
Feasting on bait as worms are asleep Operators are standing by
Some restrictions may apply
Side effects could include
We'll steal the life right out of you Descending, I'm mending but still I'm pretending
I regress to become one of them
They gave me this friction, they yield to my diction
I can't repress myself Eat the children raw
Eat the children raw
Eat the children raw
Feasting on bait these worms are asleep Operators are standing by
Some restrictions may apply
Side effects could include
We'll steal the life right out of you If I'm a danger to myself
Just think what I could do to you Role model number 1 taught you how to shave
Role model number 2 took you to the PTA
Tell us how to dress and teach us to obey
But they never heard a word that you had to say
For shame, for shame 'Cause I am vermin, I'm the anti-Christ
Just another lonely chapter in the book of lies Don't they know that they are the prey?
Don't they know they are the prey?
Don't they know that they are the prey? Don't they know I'm predator?
Don't they know they are the prey?
Don't they know I'm predator?
Don't they know I'm insane? Don't they know I'm predator?
Don't they know they are the prey?
Don't they know I'm predator?
Don't they know I'm insane? Eat your children raw
Eat your children raw
Eat the children raw
Feasting on bait these worms are asleep Operators are standing by

Some restrictions may oblige
Follow this simple rule
Do unto them before they do unto you
These wounds cut and I'm out for blood
