Blotter

Stone Sour

Let's go!I only wanted, only wanted just to touch you
I couldn't bear it, couldn't bear it if you leave
It doesn't matter, doesn't matter if I scare you
I only wanted, only wanted someone else's skinTo feel you there
Touch my face
Keep me whole
Help me see my life
Give me your lifeI didn't wanna, didn't wanna be the first one
I haven't ever, haven't ever been discreet
It isn't over, isn't over by a long shot
I didn't wanna, didn't wanna be the only oneTo feel you there
Touch your face
Keep you whole
Help you see my life
Give me your lifeIncredible and chemical
Incredible and chemicalBefore I show you where the secret is
I want to turn you into this
I want to give you all my nothingness
I want to cover you with thisBefore I show you where the secret is
I want to turn you into this
I want to give you all my nothingness
I want to cover you with thisSee my life
Give me your life
Let me see my life
Give me your lifeIncredible and chemical
Incredible and chemical
Incredible and chemical
Incredible and chemical
